FOR: OPTICAL RECORDING METHOD AND OPTICAL RECORDING MEDIUM

STATUS OF CLAIMS AND SUPPORT FOR CLAIM CHANGES
UNDER 37 CFR §1.173(c)

COMMISSIONER FOR PATENTS
ALEXANDRIA, VIRGINIA 22313

SIR:

In accordance with 37 C.F.R. §1.173(c), the following is a statement of the status of the patent claims, and an explanation of the support in the disclosure of the patent for the changes made to the claims. In the present Reissue Application, Claims 1-12 are pending and Claims 1, 2, 5, 6, 8 and 11 have been amended.

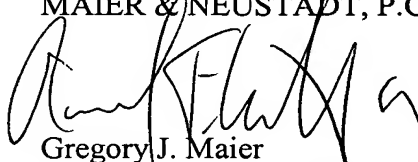

Claims 1, 2, 5, 6, and 8 have been amended to correct typographical errors made by the USPTO in printing the patent so that Claims 1, 2, 5, 6, and 8 now correspond to Claims 1, 2, 5, 6, and 8 as they were allowed in the application. Correction of typographical errors that do not provide a basis for reissue may be included in a reissue application that includes a 35 U.S.C. §251 error. See MPEP §1402.

The change made to Claim 11 is made to correct the 35 U.S.C. §251 error therein that renders the patent at least partly inoperative or invalid because of the recital therein of having both the crystal state and the amorphous state defined as an erased state. As noted at col. 11,

lines 44-45 of the patent, amorphisation provides recording while crystallization provides erasing. This disclosure, for example, supports the change made to Claim 11.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.

A handwritten signature in black ink, appearing to read 'Gregory J. Maier', is written over the printed name.
